Jakarta, Indonesia

I am an undergraduate Computer Science student at BINUS University with a passion for programming in data-related fields, like Python and SQL. Passionate about uncovering insights through data and skilled in digital marketing strategies, especially in publication and marketing.

Work Experiences

PT Telekomunikasi Indonesia - Jakarta, Indonesia Feb 2025 - Feb 2026

Data Scientist Internship

- Performed daily ad-hoc data analysis using SQL in Google BigQuery, collaborating with Product Managers and cross-functional stakeholders to deliver actionable business insights.
- Designed, built, and maintained analytical data marts, transforming raw backend data into curated datasets and supporting 10+ interactive dashboards using Looker Studio.
- Ensured data quality, consistency, and integrity across 10+ datasets by managing end-to-end data ingestion pipelines from raw data to data marts for analytics and reporting.
- Conducted statistical and exploratory data analysis using Python, including Tukey HSD analysis, and performed backend data ingestion into BigQuery raw tables via CLI tools.
- Assisted in developing a predictive modeling project by preparing datasets, performing exploratory data analysis (EDA), and supporting model evaluation.

Education Level

Universitas Bina Nusantara - Indonesia Aug 2022 - Dec 2026 (Expected)

Bachelor of Computer Science, 3.66/4.00

- Relevant Course: Data Analytics, Database Design, Big Data Processing, Artificial Intelligence, Data Mining

Organisational Experience

Himpunan Mahasiswa Teknik Informatik (HIMTI) - Jakarta, Indonesia Feb 2024 - Mar 2025

General Manager of Relation Expansion

- Supervise over 150+ member team divided into two divisions, with one focused on social media content, external media partnerships, and executing internal bonding events.
